

ASTRO 50 12W

The Astro 50 Engine utilises high performance LED chip on board and optical technology to deliver high lumen output even at 90CRI. The 50mm diameter and flexible plug and socket cable allows it to be used as an integrated engine in existing MR16 applications.

Specification

Code	EN
Family	00007
Range	Enigma
Mounting Type	Lamps and Engines
Material	Die Cast Aluminium
Light Source	LED
System	12W @ 350mA
Wattage	
Fitting Current	@350mA
Chip	CRI90 2700k 1334lm, CRI90 3000k
Specification	1432lm, CRI90 4000K 1544lm
Dimming	DALI Dimmable, Mains Dimmable
Beam Angle	25, 43, 60
Colour	Silver
Depth	77mm
Diameter	50mm
IP Rating	IP20
Lifetime	40,000 Hours
