

# COIN50

The Coin50 Engine utilises high performance LED chip on board and optical technology to deliver high lumen output even at 90CRI. The 50mm diameter and flexible plug and socket cable allows it to be used as an integrated engine in existing MR16 applications.

## Specification

<b>Code</b>	EN
<b>Family</b>	00008
<b>Range</b>	Enigma
<b>Colour</b>	Silver
<b>Beam Angle</b>	24, 40
<b>Chip Specification</b>	CRI90 2700k 960lm, CRI90 3000k 1020lm, CRI90 4000K 1510lm
<b>System Wattage</b>	12W @ 350mA
<b>Mounting Type</b>	Lamps and Engines
<b>Material</b>	Die Cast Aluminium
<b>Light Source</b>	LED
<b>IP Rating</b>	IP20
<b>Input</b>	240V
<b>Diameter</b>	50mm
<b>Height</b>	50mm
<b>Lifetime</b>	50,000 Hours
